

A glowing white star and a glowing white sphere are positioned on a dark background. The star is on the left, and the sphere is on the right. A faint, thin white arc is visible above the star and sphere. The overall composition is centered and minimalist.

THE ART OF SEEING WHAT REALLY COUNTS IN LIFE

Montblanc is one of the world's finest manufacturers of sophisticated, high-quality, luxury products. It is also one of the world's leading symbols for timeless beauty, style, quality and authenticity.

The Montblanc white star has become a symbol of culture and social recognition. It stands for those intrinsic values that underscore people's effort to preserve their identity and individuality in a time of constant change. In the past few years, the product range has been expanded beyond the famous writing instruments to include writing accessories, watches and jewellery items, leather goods and belts, fragrance, and eyewear. While this diversification has attracted and binds more and more consumers, all these product lines have one thing in common - they underline Montblanc's passion towards master craftsmanship in the true traditional sense of the word.

THE ART OF SEEING WHAT REALLY COUNTS IN LIFE

TARGET CONSUMER

---

People all over the world are attracted to Montblanc by the brand's values such as timelessness and stylistic sense as well as high aesthetics in quality and function.

Montblanc customers are value-oriented and believe in quality. The entry into the Montblanc brand is at the age of thirty when professionals have undertaken their first major achievements in business life.

Over the last years more and more new stylish products have been added to the collection which have attracted a younger clientele. Montblanc customers are people who go for professional success with a strong and ambitious determination.

For the younger age group Montblanc offers writing instruments and watches which are pure in design, without opulence; clear and minimalist designs with straight lines. Montblanc has become highly attractive for young female professionals as well.

Part of the Montblanc products are specially made for women such as the leather collection for the successful business woman.

Because of the timelessness of Montblanc products, handed down from generation to generation, customers stay with the brand for years and often Montblanc masterpieces become their lifelong companions.

TRENDY NEW SIGNATURE

The Montblanc Trendy New Signature Eyewear Collection has been designed as the ultimate eyewear collection for the elite of tomorrow.

The collection appeals to a self-conscious, dynamic and successful generation of men and women with an open-minded, lifestyle-oriented attitude towards life.

Trendy New Signature is the contemporary range of eyewear products, pure in design with an array of luxury details and innovative materials.

The outstanding design also includes the famous Montblanc Star that is clearly visible at the end of the temple tips.

# TRENDY NEW SIGNATURE

URBAN CLASSIC

The Montblanc Urban Classic Eyewear Collection is a timeless collection of beautifully crafted glasses with finest materials. The styling successfully combines traditional details with a contemporary design and appeals to customers who enjoy luxury and culture and have an obsession for pure, traditional design codes.

They are more conservative but are becoming increasingly receptive for contemporary styles - provided these have a clear visible Montblanc design feature.

Some models of the Urban Classic Eyewear Collection are crafted with the Montblanc Doublé rings, have the famous Montblanc Star at the end of the temple tips and are worn by customers who want to express their identity and individuality.
